PROFILE

Backend engineer with ten years of building order, billing and document systems. I like boring infrastructure, small pull requests and documents that come out the same on every run.

EXPERIENCE

Senior backend engineer

Olvarest Ltd · Exampletown · Mar 2021 – present

- Lead the billing platform team of five, from usage metering to the monthly invoice run.
- Moved invoice and contract PDFs from a home-grown renderer to templates in Git with snapshot tests.
- Cut the month-end batch from six hours to forty minutes.

TypeScript · Node.js · PostgreSQL · Kubernetes

Software engineer

Fennlor Studio GmbH · Musterstadt, Germany · Sep 2017 – Feb 2021

- Built the order and invoicing service that replaced a nightly spreadsheet export.
- Introduced contract tests between the shop and the warehouse system.

Python · Django · PostgreSQL · RabbitMQ

Junior developer

Olvarest GmbH · Beispielstadt, Germany · Oct 2016 – Aug 2017

- Maintained the customer portal and its reporting exports.

PHP · MySQL

EDUCATION

MSc Software Engineering

University of Exampletown · 2015 – 2016

BSc Computer Science

University of Exampletown · 2012 – 2015
